Use the proper size stone for the plan device.				
Keep the stone in the stockpile clean and avoid contamination during loading.				
Keep the different size stones in separate stockpiles.				
Ensure that the stone meets the gradation requirements listed in Table 1042-1 of the Standard Specifications. If the stone does not meet these gradation requirements, the Contractor should be notified to correct the problem as soon as possible.				
Monitor stockpiles to ensure that the stone is utilized for the intended purpose.
